Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: None of the references cited or the art searched disclose or teach alone or in combination the method for predicting dimensional accuracy when performing a press-forming of a metal sheet which includes setting the stress-strain relationship based on a perfectly plastic material having a constant stress after being yielded, formulating the first prediction equation of dimensional accuracy using a perfectly plastic solid model, setting a value equal to or below the tensile strength, formulating the second prediction model which considers work hardening by replacing a portion of the first prediction equation by an accuracy amount corresponding to the yield strength and apparent yield strength, and obtaining a dimensional accuracy defect amount using the second prediction model.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
